Address:	80 Holloway Road, London, N7 8JG	**Web site:**	www.richmondfellowship.org.uk

Background	• One of the largest voluntary sector providers of mental health services across England • Deliver support to over 9000 people every year across 120 localised services • Work with people with complex needs, including offenders (20% of service users) • Run over 25 specialist mental health employment services across the country
Objective	We are looking to deliver specialist employment support and advice to people experiencing mental health problems. We have experience working with prime providers as a subcontractor under the DWP Work Programme and see this as an excellent opportunity to develop our model within prisons. Our Employment Services work with some of the population furthest away from the job market and enable them to enter mainstream paid employment.
Interests	• Mental health within the Criminal Justice System • Working with people with complex needs • Partnership working to ensure integrated support, including with prisons, police and probation for joint risk management
Area of Delivery	We are a **national** provider and would be interested to discuss possibilities across the country. Our existing employment services cover Buckinghamshire, Bristol, Cambridgeshire, Cheshire, London. Merseyside, Midlands, Peterborough Tyneside, Thames Valley. Wilshire, Yorkshire
