Organisation:	Reed in Partnership	**Mobile No:**	07507 881638
Address:		**Web site:**	www.reedinpartnership.co.uk

Background	Reed in Partnership was on of the first private sector welfare-to-work companies in the UK. We have been helping people, including ex-offenders, into work since 1998. Our first contract started in Hackney, delivering a 'New Deal' contract to support local jobseekers. As our performance and expertise grew we expanded to deliver services in Scotland, Yorkshire, the North West, the East of England and across London. We now support people and their communities across the UK - from Bournemouth to Glasgow - and have expanded internationally to deliver welfare-to-work programmes in Australia. Since 1998 we have delivered over 100 welfare-to-work programmes, helping over 130,000 people into employment. We have also diversified our business into new markets. We now deliver a range of programmes from employment support to Apprenticeships to College Jobs Brokerage to developing young citizens through the National Citizen Service.
Objective	Reed's mission is to be the partner of choice for developing all people and communities, including those with challenging backgrounds. We have an established track record working with ex-offenders on our current welfare-to-work programmes, and are seeking to bring this expertise to delivering the NOMS ESF Round 3.
Interests	We are looking for potential partners and subcontractors to work with us on the ESF NOMS opportunities - and encourage all potential partners to register at: http://www.reedinpartnership.co.uk/partners.
Area of Delivery	We are interested in pursuing the right opportunities nationwide. To view our current programmes and areas of delivery, please see: http://www.reedinpartnership.co.uk/our-services/our-programmes
