Background	Sodexo delivers custodial and offender management services at five UK prisons. inthe UK. We directly provide a full range of reintegration and care services in these prisons, including: • Supervision of offenders during work and other rehabilitative activities • Accommodation finding and/or tenancy retention support • Healthcare including provision for mental health support and substance abuse and alcohol treatment • Education including basic skills, vocational training, music and drama • Substance abuse work including provision of care planning activity and accredited group activities and CARAT services. • A wide range of employability support
Objective	Sodexo's objective is to build on our expertise in offender management and resettlement services in custody. We want to form partnerships with organisations, who have a proven track record in employment support, community delivery or working with the hardest to help offenders, in order to achieve better outcomes for service users.
Interests	Sodexo is primarily interested in the delivery of case management and resettlement services in custody to support offenders to find sustainable employment. However, we wish to work in partnership on this project and understand that other organisations may be better placed to deliver these services to some groups of offenders.
Area of Delivery	Sodexo is prioritising the East of England, North West and North East regions. We operate resettlement prisons in each of these areas.
