Background

Babington are an experienced provider of learning and apprenticeships with a successful track delivery of workplace skills.

We have remarkable success in moving young people from entry level employment to higher level employment opportunities.

We have been delivering support to the young offender NEET cohorts for over 15 years

We deliver innovative engaging programmes to young people aged 16-24 funded by EFA or directly from schools. We work with YOTs and support young offenders back into training via our learning via our study programme and traineeships delivery.

We are also involved in NEET ESF programme delivery moving NEET young people into sustained training and employment. We cover the following sectors: Warehousing, Hospitality, Adult Social Care, Childcare, Hair, Beauty, Business Admin Customer Service, employability and Accountancy and Financial Services.

One of our most recent developments is a live and recorded music production programme which is supported by band members of groups well known to the young people on programmes. The programme develops the skills of young people in English Maths and personal development as well as sector specific qualifications in developing sound and audio production skills.
