Background	Tomorrow's People is a national employment charity established in 1984. We help and support the most disadvantaged people in society out of welfare dependency by getting and keeping a job and thereby living independently. Our Merseyside operation commenced delivering locally back in 1999.
Objective	Tomorrow's People would like to be play a part in the delivery of this programme in order for the Charity to have further impact and added value in supporting the personal development of offenders living locally and the individual's progress into real, sustainable work through behavioural change on their part e.g. reduction in reoffending.
Interests	Our mission is to help and support the most marginalised and vulnerable groups in society – unemployed adults and NEET young people – into sustainable employment.
Area of Delivery	Our local operation is able to cover the whole of Merseyside / Liverpool City Region. Currently, our main LA areas of operation are in Liverpool, Knowsley, Sefton and Wirral.
