Address:	Lee House 90 Great Bridgewater St M1 5JW	**Web site:**	www.work-solutions.org.uk

Background	Economic Solutions Ltd is a not-for-profit company that operates in Greater Manchester, Cheshire, Lancashire, South Yorkshire and Humberside. We are a major provider of employment and skills services and have 15 years' experience of working with offenders, through our Work Solutions services. Our experience covers both custodial and community settings, delivering interventions that support rehabilitation by providing advisory, case management, training, and skills support to progress to sustained employment.
Objective	We are interested in this programme as it is strongly consistent with our expertise and operating ethos to develop the economies of the areas in which we operate. We want to support and prepare offenders both in custody and the community in order that they can find sustained employment. This benefits them individually, reduces re offending and has a benefit to the communities that they come from and return to.
Interests	At this stage we are interested in operating as a Prime contractor and in delivering a range of interventions that support our objectives, with a focus on employability and job search, job brokerage, in work support, motivational and personal development training/support. We can provide this within an end to end/case management model. We can also broker mentoring and work placement support, training and other interventions to support the NOMS ESF objectives.
