

Developing a Consortium

Why are we doing this?

Why are we doing this?

What do we hope to achieve?

Are we clear?

What will be the end product?

What does that mean in terms of partner selection?

Who / What could add the value?

Will the value be sequential (i.e. a process) or through inter-company trading?

Customer identification

**What sort of experience is
there in dealing with
offenders?**

Issues relating to

Governance and decision making

Impact on individual partners in terms of resources

Compatibility with raising a social impact bond and
distributing returns

**Types of models that could be considered
(given different circumstances/objectives)**

**How will the proposed
infrastructure be sustainable?**

**What are *you* prepared to
do / offer to help make
this a reality?**

**How will you agree costing up
during bid proposals?**

How will each partner help sustain it?

**(Back) office resource
including accounts**

Risk and risk management

Data protection

Safeguarding

Statutory requirements

Best practice development and alignment

Agreed monitoring and performance metrics
