Investing in jobs and skills

**Get a step ahead
to find a job.**

Getting help to find a job

During your time on probation there are a number of ways in which you can help your chances of getting a job:

- Going to lessons for help with your reading, writing or numbers
- Attending courses or programmes
- Learning new skills on community payback
- Getting help applying for jobs or in finding other support

There are people who can help you – your offender manager/supervisor can tell you how.

Just so you know

We receive money from the European Social Fund (ESF) to help pay for this support.
