Background

Please tell us why your proposed consortium came together and when you plan to be operational:

The Consortium was set up to enable the local Third Sector in Wolverhampton to bid for, win and deliver public services and large-scale grant contracts that benefit the community locally. This is to be achieved by developing, supporting and managing a diverse supply chain of local Third Sector organisations and providing capacity-building support for those that are or will be part of the supply chain.

The Consortium will be operational with effect from April 2013.
