a statistical overview of the NOMS Co-financing Organisation

North East Round 1: Community

1. Introduction

North East Round 1: Community

NOMS Co-financing Organisation

Since 2010, the ESF (European Social Fund) funded NOMS Cofinancing programme has been working with offenders (participants) in England, aimed at improving employability and consequently helping to change offender's lives and reduce reoffending.

During the first phase (Round 1) of the programme 2010-11, regionally focussed projects were commissioned with a range of providers appointed to help offenders access a range of employment services, with the ultimate goal of gaining employment.

In order to be worked with on ESF funded programmes, potential participants must be eligible to work in the UK, and for custodial cases be within three years of their anticipated date of release.

Programme Data & CATS

All data used in this report is obtained from the NOMS CFO developed Case Assessment and Tracking system (CATS), with all CATS entries undergoing the scrutiny of the NOMS CFO's Data Integrity team.

2. Demographics

North East Round 1: Community

Age

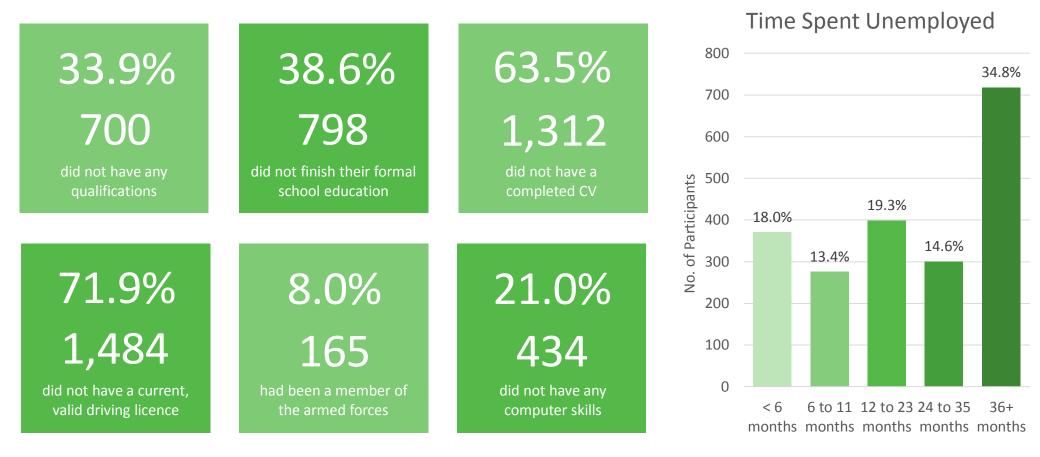

Participants on the NOMS CFO programme come from a varied demographic distribution that is largely reflective of the wider offender cohort that they come from. Due to the strict ESF eligibility criteria, there is a slightly reduced number of foreign nationals on the programme compared to the offender cohort in general. Additionally, some sub-projects may target specific age groups, BAME individuals or female offenders – increasing their numbers slightly.

3.1 Assessed Barriers to Employment: *Experience & Qualifications*

North East Round 1: Community

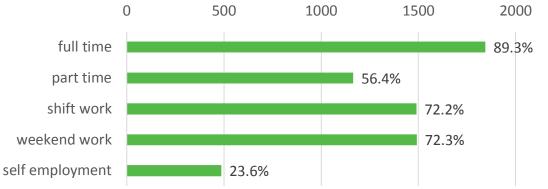

Most of the NOMS Co-financing programme's participants faced significant barriers to employment due to their general lack of education, qualifications and basic skills. All participants were unemployed or economically inactive before coming on to the programme, with a significant number having not worked for several years. A small but significant number of participants declared themselves as having previously been a member of the armed forces – this includes some foreign nationals who served for their country of origin.

3.2 Assessed Barriers to Employment: *Attitudes & Expectations*

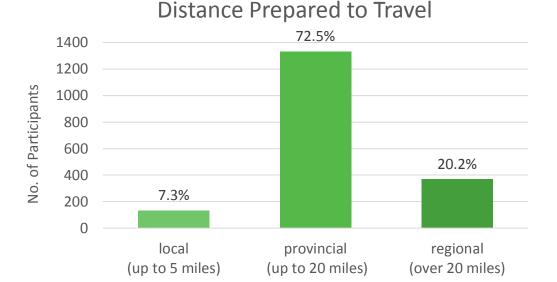

North East Round 1: Community

Patterns of Work Considered

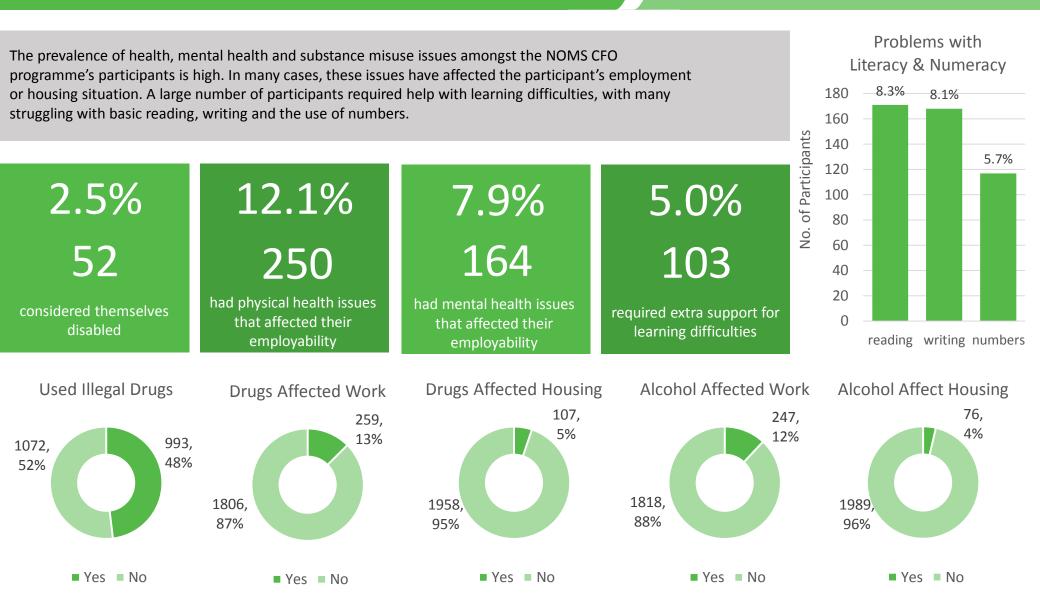

The majority of NOMS CFO programme's participants thought that having a job would reduce their chance of reoffending. Despite many of the barriers faced, many were willing to engage with a mentor, consider alternative working patterns or travel in order to find employment.

4.2 Achievements North East **Round 1: Community** Development: Skills & Self Improvement 334 (16.2%) gained monetary assistance from the Discretionary Access Fund (DAF) 883 (42.8%) gained support and training aimed at employability skills 747 (36.2%) received training and support for improving their motivation

145 (7.0%) attended courses aimed at general life skills such as social skills or personal presentation Once the elemental barriers to employment have been identified and addressed, work begins on moving participants towards becoming job-ready. Generally poorly educated, unskilled and demotivated, most of this work revolves around upskilling and self improvement.

4.3 Achievements Getting Ready for Work

North East Round 1: Community

After considerable progress and development, the NOMS CFO programme's participants will be able to start actively looking for work in the community. This phase also includes a range of support from help with completing application forms and CVs, to training in interview skills and interview preparation, through to assistance with setting up a bank account or gaining formal identification.
